### **39. FAMILY TREES**

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

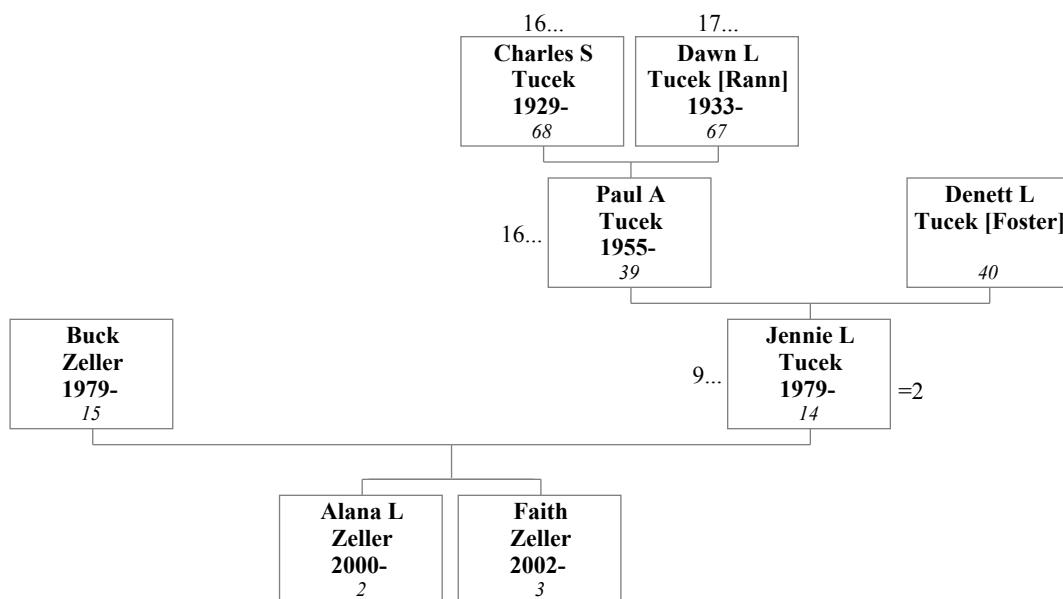

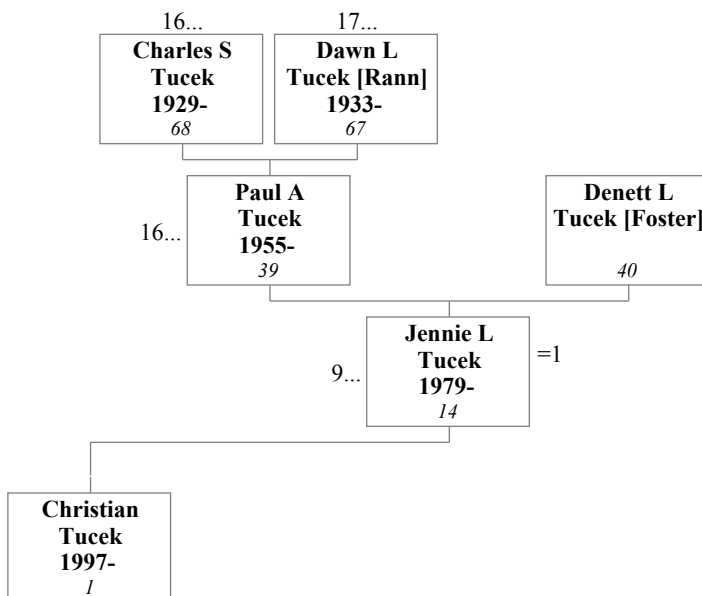

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.

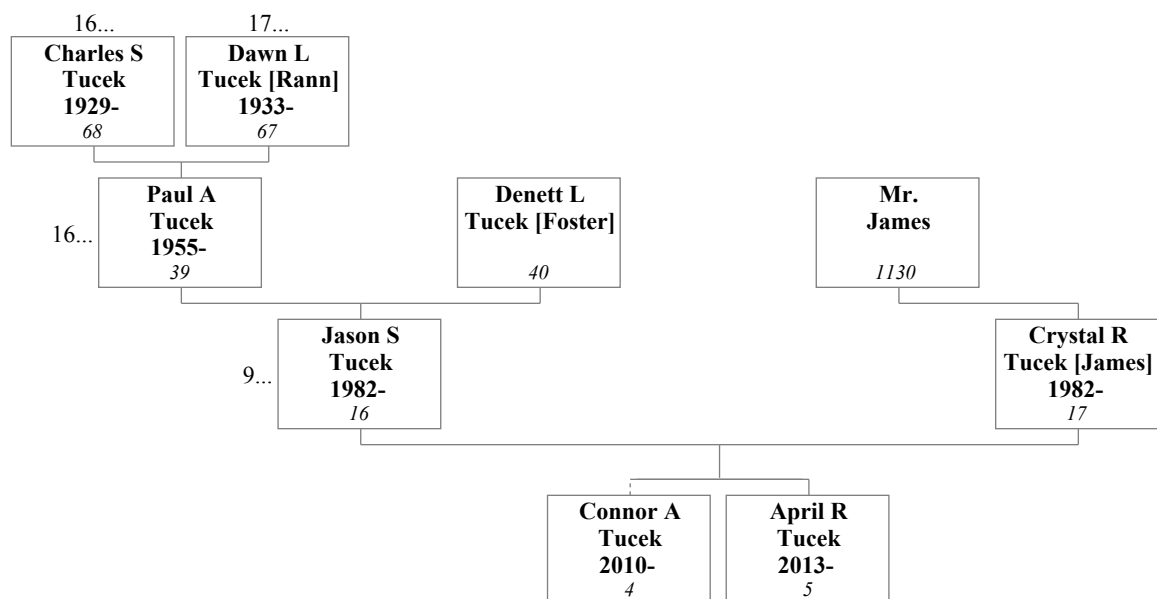

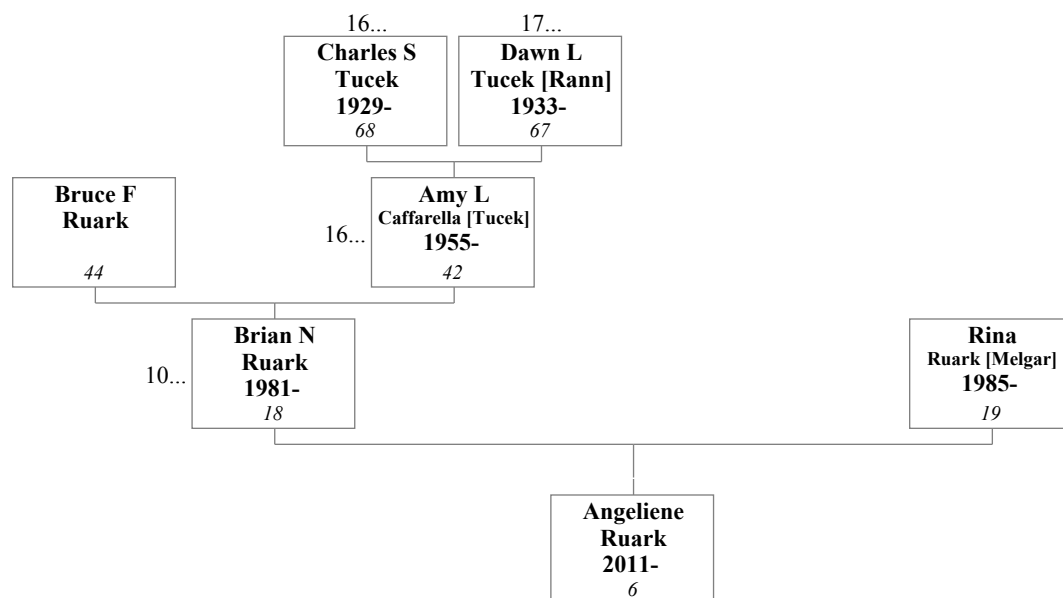

In cases of multiple marriages, a continuation reference number preceded by "=" is shown to the right of a parent box. This number references the previous and/or next tree in which that individual is shown with another partner.

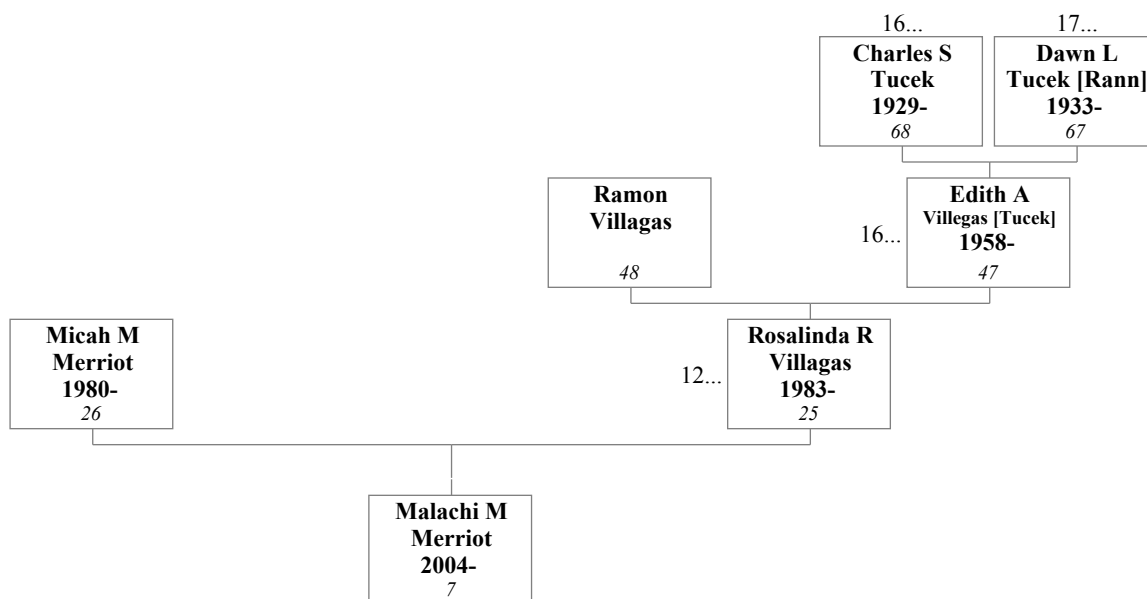

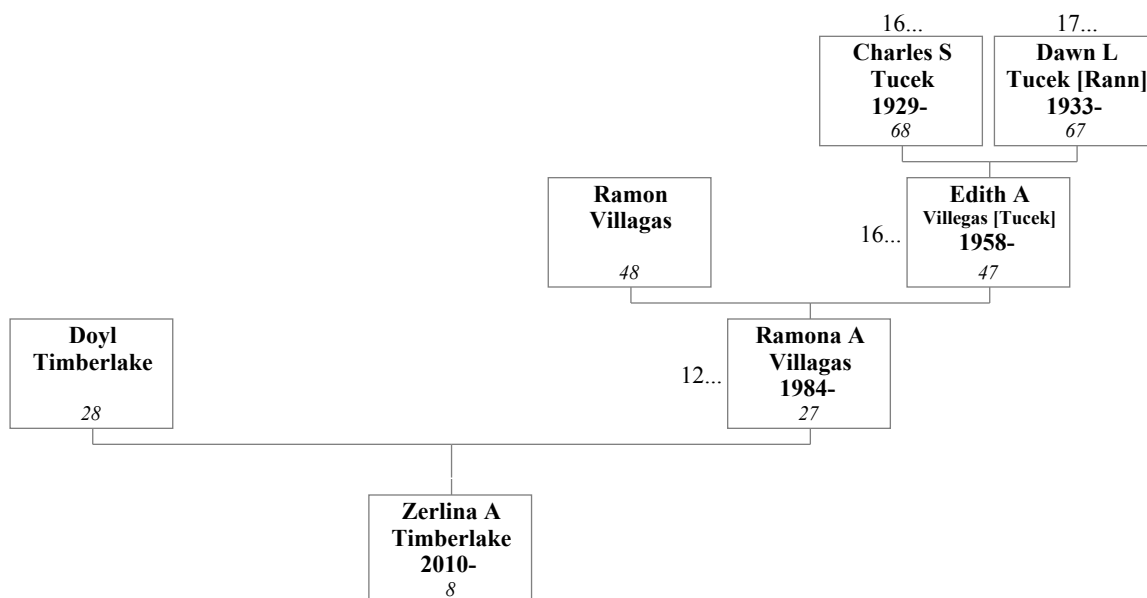

In cases of adopted (or fostered) children, the parental connection is shown with a dashed line and a continuation reference number preceded by "=" is shown within the individual's box. This number references the tree in which that individual is shown with his or her natural parents.

3. Claims to have co-written (with high school friend) in ~1941 the song that latter was known as Sleep Walk (apparently usurped by Santo and Johnny). Her name for it was "Lovely." This song was in the top of the charts in 1959. The friend was killed in action, and his father (a lawyer) asked for her copy of the song as a remembrance. She had no other copy. Later she heard it being played by a band and was shocked. Unfortunately there is no way to reconstruct the song's origin and early history.
